The Carpenters' Encyclopedia (CE 2009) of Carpenters 2009 is an ongoing study that combines Genealogy, the linking of names, with Family History Research, and the stories behind the names. Details are dependent on the section of genealogy submitted. Use with care. The CE2013 Update is an updated version of the CE2009.

The CE is a long term project that has its roots back in December of 1976 when I sketched out my four generations for my Church. The CE CD 2001 was a collection of what was out there. Today, the CE has grown to include not only different Carpenter lines, but it is heading toward a "One Name" type project that includes Zimmerman and other related names.
